## C. E. Crawley Is Back

C. E. Crawley, at the head of the Sinclair organization in Tulsa, is back from New York, where he went to attend a conference of the heads of the two Sinclair concerns, and is feeling very much pleased, indeed, with the outlook for the future.

## Confirming the Shaffer Sale

New York papers are confirming the sale of the C. B. Shaffer properties to the Standard Gas & Electric Co., who quote an official of H. M. Dyllesby as saying that there is a deal under way. It is also further given out that the sale includes the Consumers Refining company, but places no estimate on the value of the property to be transferred. Mr. Shaffer is receiving \$12,000,000 for his interest which include producing property at Cushing, and in Butler county, Kansas. This would indicate that the Barbara Oil company of which Mr. Shaffer is doubtless expecting great things will not go in the deal. The chances are, however, it is a merger and not a sale.

The Barbara properties are located around Okmulgee, and include much undeveloped territory, some of which is exceedingly valuable. However, the whole matter is a question of speculation, as nothing has been given out officially.

There has been much inquiry among refiners as to what will George Moore, general manager of the Consumers Refining company do, if the sale is made. Mr. Moore is exceedingly popular, and has a word of friends in the mid-continent field who recognize the fact that he is one of the big men in the game.

C. B. Shaffer owns a handsome farm in the famous blue grass region which he has been constantly improving, and where he spends much of his time.

His brother, J. D. K. Shaffer, is interested with him in the oil business, and is not likely to leave the

**SAVING**

The Wise Give a Part to Have the Rest Assured

**INSURANCE**

Insure your property against FIRE and let hundreds of thousands of other people help you pay your loss if you experience one.

The insurance premium represents, besides cost of doing business, the average amount you pay for losses—and the payment of this sum through THIS AGENCY insures YOU being paid for any fire loss you may suffer.

where he has an office these days.

The corrected list of the executive committee of the Western Petroleum Refiners association is as follows: E. H. Perry, F. H. Twine, E. E. Schuck, T. A. Braley, Thomas P. Mevin, Perry Jones, L. L. Marcell, P. M. Miskell, W. B. Hatchett, W. L. Kistner and George N. Moore. W. D. Richardson is vice president, with E. W. Goebel as treasurer, certainly a strong aggregation.

Henry L. Doherty, head of the China Service company, who has been reported as being in Tulsa today, is not coming, according to P. M. Miskell, who ought to know, and thus Tulsa is going to be deprived of entertaining one of the world's greatest oil men.

A. H. Grant, from the Chicago office of the Midland Petroleum company is due in Tulsa and will assist Arch Rider, thus giving the Tulsa office more time to visit the smaller refineries in the midcontinent.

## Going to New York.

H. F. Wilcox, accompanied by Mrs. Wilcox, will leave for New York tonight on a business trip to be gone a week or ten days.

## Thomas White in Tulsa

Thomas White, who is associated with his brother, P. J. White, in the oil business, but who lives in New York, is in the city renewing old acquaintances and such, that his brother is in Louisiana at present, and further, that the prospects are good for quite an extensive pool in that state. This has reference to the development not only at Homer, where there has been much excitement and several wells com-

## Among the Refiners

The selection of Pat Malloy as president of the Western Petroleum Refiners association, seems to be exceedingly popular among the refiners, all of whom are of the opinion that he would have made an ideal secretary, but they are equally certain that his work as president will be of the highest order.

E. E. Schuck is to be tendered a farewell banquet along with the retiring secretary of the association, R. L. Welch. It will be held at Kansas City on May 6th, at which time Mr. Welch will likely transfer his duties in the newly organized American Petroleum Institute.

The Sinclair Oil & Refining Co. have the concrete foundation completed for 10 new pressure stills, all of which are on the ground and will have them completed some time in June at the big Chicago plant owned by them. They are being put up in batteries of 10. After the stills are ready they will be using considerable fuel oil for re-refining purposes.

F. J. Henderson, who built one of the very first casing-head plants in Oklahoma, at Nowata, and who operates on a large scale as the Henderson Gasoline company, is in town and says that out of four or five wells he is drilling in Texas, he has lost interest in about two of them and hopes for the best with the others. He has some valuable acreage taken early. He says that if it was rumored at Ranger that the T. & P. Coal Co. have much acreage that must have a rig on within 30 days or he is forever lost.

W. B. Hassett, president of the Imperial Refining company at Ardmore, was in the city Sunday, having made the trip to see the folks and left last night for Fort Worth.

## Producing Lease For Sale

I will sell one-half interest in 120 acres with one 10-barrel well on the pump and one offset well drilled to the sand for \$7,000. This lease has 40 to 150-barrel wells on the north and east and nothing to condemn on the west and south. Will consider selling one-eighth or one-quarter interest at corresponding price. This is a snap and pay you to investigate quick. Phone 8500 or 6723-R. Address 206 Central National Bank.

## Should Be 1000 Barrel Well

buys sixtieth interest in company owning \$12,000 lease close to 1,500-barrel and other big wells at Burk Burnett, Texas. Also includes sixth interest in lease in shallow field at Iowa Park, Texas.

Drilling contracts give us first well on each lease without expense.
